Ch. E. 3. 34

Gentlemen

I have been notify'd that this Town have made choise of me as one of their Representatives in the great and general Court the ensuing Year. This mark of their confidence much affects me, and I acknowledge my self under every tie to serve my fellow Citizens all in my power, but by reported trials I have found that to be a member of that Court so enervates me as to unfit me for the employment. I am therefore in faithfulness constrain'd to decline undertaking this important trust
